Distribution of the students by school

- School of Mathematical, Physical and Natural Sciences
- School of Medical, and Pharmaceutical Sciences
- School of Social Sciences
- School of Humanities
- Polytechnic School

The *School of Medicine and Pharmaceutic*

Scuola di Scienze Mediche e Farmaceutiche.

- The Medical Faculty was founded in the XV century as a College with four medical chairs, which was attached to the Pammatone hospital located in the medieval area of town. Around 1930, the hospital services were transferred to the San Martino district.

Visit the sick. A view of old Pammatone Hospital by Cornelis de Wael (around 1640).

The school of medicine and pharmaceutic

(1)

- The Faculties of Medicine and Pharmacy merged in 2011 to create the *School of Medicine and Pharmaceutic (Scuola di Scienze Mediche e Farmaceutiche)*.
- *The School* now covers over 95,000 sqm of hospital space, laboratories, teaching and sports facilities, libraries, and offices. It offers courses not only in Medicine, Pharmacy and Dentistry, but also courses in 22 health professions, such as nursing, physiotherapy, and midwifery.

The school of medicine and pharmaceutic

(2)

- There are about 40 postgraduate courses in medical specialities, several PhD and master programs, which are offered in Italian and in English.
- The School of Medicine and Pharmaceutic shares its clinical facilities with the San Martino Regional Hospital and the Gaslini Pediatric Hospital, one of the most prestigious in Europe, maintains a strong scientific cooperation with the CNR (National research Council of Italy), and the Italian Institute of Technology.

The school of medicine and pharmaceutic

(3)

- The school's strong point, in addition to teaching state-of-the-art clinical practice, is the remarkable research activity in basic sciences such as biochemistry, molecular biology, immunology, oncology, and neurosciences, which makes the School of Medicine and Pharmaceutic one of the most productive in Italy in terms of publications and research grants.

P2 UNIGE - Project role

- According to the project University of Genoa would be Leader of WP 3
- **Development and Establishment of “ICARE” inter-professional student-led PHC clinics**
- The UNIGE’s Experience on how works the ties between University and San Martino Hospital will serve as a start point for the project outcome.
- And especially :
 - Will provide know how about the development of the business plan for the functioning of the clinics
 - Preparatory “ I CARE” intensive clinic courses and training
